Intended Usage of Never Miss A Sign “Play Coaches”

April 1, 2023 – At Never Miss A Sign we develop software and physical products that are designed to help athletic coaches quickly communicate plays/signals with their players through a coded series of numbers. The coach will have access to master list of plays/signals and the player will wear a “Play Coach” that they will read and decipher the correct play/signal.

“Play Coaches” are worn by the players to hold their play/signal legend. These are commonly known by many names: wrist coaches, signal wristbands, play coaches, belt coaches, play windows, player cards, etc.

The Play Coaches manufactured by Never Miss A Sign are specifically designed, and intended, to be worn either on the player’s wrist or their belt.

We have specifically designed our Play Coaches with dimensions that allow these to be worn on baseball and softball players’ belts between their belt loops for easy access.

Never Miss A Sign Play Coaches are branded with either our wordmark “Never Miss A Sign,” or our “X” logo.

Never Miss A Sign was started in 2012 as an alternative way for coaches to relay signals to players quickly and accurately. Never Miss A Sign software and “Play Coaches” are used by more than 10,000 baseball and softball teams each year in International competition, all levels of collegiate athletics, high schools, middle schools, travel organizations and recreational sports.
